McGraw Brings Christy Mathewson Back to New York to Groom Him as His Successor as Giant Manager

MATHEWSON AGAIN BECOMES A GIANT

By PREDERICK G. LIEB.

There is good news for the local fans this morning. Christy Mathewson, unquestionably the most popular player that ever wore a New York baseball uniform, is back with the Giants, Matty's new title is coach of pitchers and aslstant manager.

But Capt. Mathewson actually will be more than that. Matty is being brought back to New York so that he may be aroumed to succeed John McGraw as Giant manager. McGraw himself intimated that this change will be made in the course of two or three years. When it is made McGraw will devote all bis time to the executive affairs of the club. Mathewson has not yet signed a New York contract but accepted terms yesterday. He will sign with New York as soon as Cincinnati goes through the formality of granting him his release. Herrmann said yesterday he immediately will grant Big Six his unconditional release. By an odd twist of baseball fate Mathewson and Pat Moran exchanged places in the last few weeks. Cincinnati held the job of manager open to Mathewson until late in January and to Mathewson until late in January and Moran was eigned as Glant coach. Then Moran was released by McGraw so that he might succeed Mathewson an Cin-cinnati and how Mathewson comes back to take Moran's former job.

Hab Fatth in Matty.

Matty is well acquainted with my ystem," said McGraw yesterday. "But then he last was with the club he was a pitcher and gave all his time and thought to that department. Mathewson and I will work hand in hand for two or three years and by the end of that time I shall turn the reins over to him. In the meantime he can render great service in assisting young players, par-ticularly some of the fine young pitchers we now have on the club."

McGraw intimated that by 1922, when he completes a twenty year term as manager of the Giants, he will be ready to put Big Six in charge. McGraw also wants one more pennant to give him the managerial championship, as no man-ager ever won seven major league championships. McGraw and Connie Mack are the only men who have six to

n over the active management of the um to Mathewson.

"I am elated over my return to the Giants," said Matty yesterday. "New York has been very good to me and I regard it as my home town. I also am very pleased to get back with McGraw, who is without question the greatest on the manager of baseball."

This is the first time in history that four ounce gloves have been legalized by law. The law of New Jersey provides for eight ounce mitts, Wisconsin and Minnesota for five ounce and Nevada for five ounce.

to New York. Herrmann announced yesterday that the directors of the Cinson as manager and that a series of cablegrams were sent to him in France saking him when he would return. As no word was received from Mathewson until he landed in New York a fortnight go the job was tendered Moran. Mathewson says he did not receive any of Herrmann's cablegrams.

Miller Huggins, manager of the Yanks, visited Frank Baker at his Trappe, Md., wfarm yesterday. The officials of the club expressed the bone that Huggins will be able to persuade Baker to spend at least one more year with the Yankees.

Alexander, the crack pitcher of the Cuba, spending the 1919 season in Germany seems to have been in vain. Perhaps the Giants would just as soon have seen "Aleck" drinking Rhine water all sumar, but the great Grover will be back America long before May 15.

A cable from Kyllburg, Germany, was received in Chicago yesterday that Alexander left that city on March 5 under orders to return to the United States. Alexander will be mustered out in New York, and hopes to join the Cubs before the opening day of the season, on April 23.

Hank O'Day Suggests Change,

tional League, yesterday received a let-ter from Hank O'Day, the veteran um-pire, suggesting that the umpire on the bases be given equal jurisdiction with he plate umpire in the matter of calling balks on pitchers. In other words, Hank would give either umpire the right to call a balk on a pitcher. O'Day calls attention to the fact that

the base umpire frequently is in better position to detect balks than the man position to detect balks than the man behind the plate, especially leg move-ments, and a pitcher intentionally leaning forward in imitation of his pitching movement. Hank says that frequently the umpire behind the plate is unable to any such infringements of the balk

Heydler says he thinks O'Day's sug-gestion is a very good one, but that it would have to be acted upon by the rules committee before it could be made part of baseball. "I could not include it in my instructions to umpires, as the pres-ent rule specifically says the umpire behind the plate must call balks," said

Governor Signs Bill Permitting Bouts With 4 Oz. Gloves -Women's Pleas Help.

Special Despatch to THE SUN. Borse, Idaho, March 7.—The sharpest eversal of public and legislative opinon regarding the status of boxing as a desirable form of sport was registered here to-day when Gov. Davis signed a bill providing for twenty round bouts with four ounce gloves.

The measure, which received the

gubernatorial signature shortly after its passage, also provides for a commission of three members to control the sport. A significant feature incident to the passage of the bill was the hearty sup-port it received from women members of the Legislature.

"I don't want my sons to be molly-coddles. This bill will prevent a race of mollycoddles," said Representative Carrie White, championing the bill. Mrs. White, another woman legislator, and a minister were active supporters of the

GALAXY OF STARS SEEK A. A. U. TITLES

Records Likely to Fall Before Speed and Strength of Champions To-night.

More than 150 athletes, representing the cream of the athletic world, will be seen in action at the A. A. U. mational indoor championships in the Thirteenth Regiment Armory, Brooklyn, to-night. They will come from all parts of the country in quest of the eleven individual titles and the team banner, which will

go to the club whose representatives score most points.

Because of the galaxy of stars entered in the different events it is likely that several new records will be established. In the middle distance runs such famous In the eighteenth game Biddle double faulted three times, and it appeared doubtful if he could have gone on for many games more. Twice during the latter part of this set Shafer was within one point of winning, and had he won the set it is probable the match would be set it is probable the match wh Walker Smith, Gordon Nightingale, Max Bohland, Clyde Stout, Sherman Landers,

Angler's Solution of German War Flect.

The surrendered German U-boats, the once dreaded terrors of the sea, are offering a puzzle to the Peace Conference how in session in Paris. Will they be sunk or divided among the Allies?—New York Evening Journal.

No puzzle at all. Here is the solution:
Bring them over here, load them with rocks and sink them off the Jersey and Long Island coast, creating new fishing grounds.

Flounders in Goose Creek. In taking about flounders yesterday tharies Noehren of Goose Creek said the fist fish "were coming pretty good now." Billy Remsen and George Fountain came ashere a day or two ago with eighty-eight. They got them in the drain, and dished only part of the afternoon. The next morning Henry Kielne bagged twonty-five. These were taken right in front of Noehren's float. The famous "PRISCILLA," now equipped as a first class steel fishing party boat, will run daily to fishing bases from Sheepshead Bay Watch this column for further as

of Noehren's load a catch of thirty odd, with many good sized ones among them charife Noehren had a good mess, with a pound and a half flounder the heaviest fish. If the fine weather holds the flounder, fishing should be at its best on Sunday, according to Mr. Noehren. Long Island Casters at Van Nest.
